

COUNCIL GROUND A LARGE CRIST

Will Make War on Patent
Medicine Advertisers

WILL OPEN NEW STREETS

Bonds of the Barber Asphalt
Co. Approved.

After the city attorney has prepared the ordinance by which he is instructed to last night by the city council the patent medicine advertisers will have to be careful where they distribute their wares and samples over the city. It was reported by one of the councilmen last night that a few days ago a patent medicine man showed samples of his medicine into the yard of John House and one of the little children on finding the box of pills thought they were candy and ate them. This child became very sick and its life was saved only by a physician's skill. On the councilman's statement that similar cases had occurred in their wards and voted unanimously that the patent medicine vendors should be prohibited from throwing their samples into private yards. An ordinance will be prepared by the city attorney and passed by the council to that effect.

The Lincoln park bridge and South Hydraulic bridge are in bad shape and the city commissioner was instructed to have them repaired at a cost of between \$50 and \$75 and bring the bridges up to the average grade of the street.

The city attorney was instructed to notify the Santa Fe railroad company to raise about 100 feet of their tracks between the Newton spur and the Santa Fe tracks up to the street to protect the Watson mills from the water that collects there in wet weather.

The sidewalk on Central avenue between the Missouri Pacific tracks and the river will be raised.

The citizens living on Water street filed an objection to the building of a permanent sidewalk on Water street between Lincoln and Harry streets and their objection was sustained by the council.

All new sidewalks to be built on Campbell avenue will be built to conform with the present sidewalk.

The city clerk was instructed to order the persons owning the property on Water street south of Lincoln street to move their fences back from the curbing the required distance.

Councilman McKee reported that some of the streets south of Friends University had been fenced up by the adjoining property owners and were being used as pastures. The street commissioner was instructed to open the streets.

Chief of police will be instructed to prevent the auctioneers on Water street from blocking Douglas avenue and prevent them from coming nearer than 100 feet of Douglas avenue on Water street.

A petition to open a livery barn in a frame building in the rear of Geo. Jones & Co's store was referred to the fire and water committee.

By consent of the council the name of Mosier avenue on Collins Hill will be changed to Roosevelt avenue. The reason for this is that there is another Mosier avenue in the city, and that Mosier is often mistaken for Mosley avenue, thereby causing much confusion in the mails.

An objection stated by the citizens living on Mosier avenue at a sidewalk on that street between Second Street and Douglas avenue was sustained by the council.

A motion was made to instruct the officials of the Wichita and Western railway company to arrange their tracks in such a way that the waste water will be drained from a point where their tracks cross Seneca street. The motion was referred to the city engineer.

A petition signed by a number of citizens for an arc light at the corner of Hunter and Washington avenues was referred to the light committee.

The contract for 1,500 feet of fire hose at \$1.00 per foot with the Chicago Fire Hose company was approved by the council.

The estimates of the city engineer of \$20,000 for the paving of Seneca street were approved and placed on file. His estimates of \$2,000 and \$10,000 for the paving of Water street from Douglas avenue to First street were also approved.

The matter of paving Rock Island avenue was referred to the city engineer, paving committee and city attorney, who were instructed to confer with the Frisco people, who own the abutting property.

The bonds of the Barber Asphalt company for the paving of West Douglas avenue were approved and accepted.

An ordinance providing for the payment of \$500 per year to the city clerk for his services as a stenographer for several years, but the council considered it wise to authorize it by an ordinance.

The plans for the city storm sewer, made by Mr. Kestland, were referred to the sewer and drainage committee and the city engineer.

The city attorney was instructed to notify the owners of the city waterworks that it is the intention of the city to purchase the waterworks as provided for in one of the city ordinances.

The contract submitted by Sumption & Co. for the sewer in district number four was referred to the sewer and drainage committee for their inspection, and if the report they return is favorable the mayor is authorized to sign the contract. The bond of Sumption & Co. of \$10,000 is to be signed at the same time.

The husband of Verdie Critch died a bill asking for damages for his wife's death by the latter in a fall through a coal chute west of the Sheets

building on South Market street over a year ago. The bill was referred to the judiciary committee.

The report from the police department for the past month showed a total of 267 arrests and \$2,728.45 collected in fines and forfeits.

The council went into executive session before adjourning.

NUMEROUS FOUND ARTICLES.
Losers Will Do Well to Call at Police Station.

Chief of Police Hart has quite an assortment of articles at the station which were found during the fair last week. Any of them will be returned to the owner if he or she will call there and describe their loss.

A woman's gray jacket found on Douglas avenue is among the articles. A champagne containing a few different articles was found on the river and was also a small black leather pocketbook. Two rolls of leather belting are among the found things. One roll of the belting is two inches wide. It is marked on the outside with the figures 182. As there are not that many feet of belting in the roll it is not known what they represent. Another roll of the belting is five inches in width. It is marked with the figures 25.

TROLLEY WIRE BROKE.
Street Car Traffic on South Main Street Suspended.

Street car traffic on South Main street was completely tied up for several hours yesterday afternoon, caused by the breaking of a trolley wire in front of the Harry street school house. Workmen were sent by the street car company to repair the break, but until late yesterday evening the cars were not running on that line. Passengers stood at the corner of Main and Douglas nearly all afternoon expecting cars from the south, but finally had to give it up and walk. It is considered fortunate that the break did not occur during fair week, both for the street car company and the fair association. People will walk to their homes when it is necessary, but they could not be expected to walk two miles or more to attend a fair.

HORSE AND BUGGY STOLEN.
Church Goers Are Losing Too Many Horses.

Another horse and buggy was stolen from the First Baptist church last Sunday night. The horse and carriage belonged to F. D. Ferguson and he has offered a suitable reward for the return of his property.

Police Officer Ben Downing said yesterday that for several weeks past there had been a horse and buggy stolen from some of the churches in this city every Sunday night. He said they had never been able to even strike a trail of any of the stolen property. He thought it would be a good plan to place a man with a shot gun to watch the horses of people who drive to church.

When horses are stolen in the city descriptions of them are sent to all the sheriffs and city marshals for many miles around. The officers are of the opinion that the horses are held somewhere near enough the city for the drive to be made in one night.

Following is the description of the horse stolen last Sunday night: black mare and tall; left ear slit; top road wagon, narrow tread, red running gear, black bed, cut down in front to phantom shape.

CHARGED WITH ROBBERY.
Two Colored People Will Have to Face Charge.

Niles Fry and Laura Hunter, both colored, were arrested at Atchison last Sunday night. So said a telegram received by County Attorney Eckstein. The charge that the two will have to face here is that of breaking into the Rock Island passenger station on the night of August 21. A detective who left here yesterday is expected to return with Niles and the Hunter woman this morning.

At the time of the robbery two colored men were arrested charged with taking the money. As both proved alibis they were released. Since that time the Rock Island detectives have been at work on the case. Fry and the Hunter woman were under suspicion and the latter finally gave away the story of how the robbery was accomplished. A Rock Island detective immediately had them placed under arrest. County Attorney Eckstein swore out a warrant for them and an officer was sent to bring them here.

It is said that the Hunter woman gave the story of the theft away because Fry didn't divide the stolen money equally with her. She is said to have gotten but \$20 of the \$77.

IS WORTH THE MONEY.
Sedgewick County Dirt Sells for \$100 An Acre.

A deed was filed in the office of the register of deeds yesterday which transferred the southwest quarter of the northwest quarter of section 27 south, range 1 west, from Corydon E. Richmond and his wife to Joseph Buford.

This forty acres is a part of the old Richmond farm out beyond the Friends University. The price paid was \$400 per acre. It will now seem as very many years to the old settlers when this land was purchased from the United States for \$1.25 per acre.

The Richmond now live in Los Angeles, Cal. They have been for several years. The improvements on the land are said to be very valuable but it is Sedgewick county dirt that is bringing the big money. Some of the farmers who have learned the value of land that will raise alfalfa say that the bottom lands about Wichita have been selling away below their real value.

APPEALS TO COMMISSIONERS.
Phillip Jones Desires Admittance to Soldiers' Home.

Phillip Jones of this city, formerly of Arkansas City, an old soldier, who served his country in the Eighth Indiana Infantry during the war of the rebellion, applied to the county commissioners to help him to gain admittance to the State Soldiers' Home.

The board immediately set about getting him into the home. When Mr. Jones was before the County Commissioners Chairman Reibisch asked him who in this city knew him. He answered that he had served in the same regiment with Fire Chief Walden up to the time of the battle of Gettysburg.

There were several people in the commissioners' room at the time and this statement caused no little surprise. Not one of those present knew that Chief Walden was one of the old soldiers, or if they did know if they had forgotten it. It was later learned that Wichita's fire chief when he was 15 years old marked "18" on the bottom of his shoe and sold an exciting officer that he was ever 18 and enlisted in the army. He and Judge Hutton are the youngest soldiers in the west who helped to suppress the southern rebellion.

TWO FIRES YESTERDAY.
William Sutton Loses Heavily on Grocery Stock.

Fire at about 5 o'clock yesterday morning in the grocery store of William Sutton, at 80 East Murdoch, almost ruined Mr. Sutton's entire stock of goods. There was little damage to the building as the fire department responded quickly to the alarm and did effective work upon its arrival on the scene. The origin of the fire is unknown. Mr. Sutton had insured for the amount of \$1,500 on his stock of groceries, worth about \$2,000. The building which is owned by S. W. Cooper, was insured for \$1,500.

At 8:30 o'clock yesterday morning the department made a run to 818 East Douglas avenue. In the second story of a frame building a small blaze was found in a room covered with matting. The loss was very slight.

AFTER THE FIRE HOUSE WAS ROBBED

Many People Afterward Visited Scene of Blaze.

WATCH WAS STOLEN

Some Clothing Disappeared from Wrecked Residence.

After nearly everything in the way of furniture, household goods and clothing, belonging to Mr. and Mrs. W. J. Harrington had been destroyed by flames, Saturday afternoon, at the home on East First street, some one entered the house and burglarized two of the second floor bedrooms.

Sunday morning it was found that a fine gold watch belonging to Fred Harrington, a son of W. J. Harrington, was missing, besides a considerable quantity of clothing.

Fred Harrington, to whom the watch belonged, had just returned to the city with his wife from Hazelton, Kan. They formerly lived here but moved to Hazelton several months ago, where he purchased a hardware store in that town and operated it for a time. He sold out several days ago and had been in the city but a short time when the fire occurred which burned his father's home.

All of the younger Mrs. Harrington's clothing was destroyed by fire, excepting some which is supposed to have been stolen. As it is impossible to take a complete inventory of the contents in the Harrington home, the stuff in several of the rooms having been burned in such a manner that it is impossible to tell what the remains originally were, it is not known just what was taken.

It is supposed that whoever stole the stuff gathered after the fire was out and went through the house examining the damage done by the flames. Probably 500 people visited the scene of the fire, including many neighbors of Mr. and Mrs. Harrington.

ANNUAL MEETING HERE.
Missionary Social Union Will Hold Convention October 1.

Dr. E. E. Chivers of New York City has been secured to give an address at an annual meeting of the Missionary Social Union which will be held in this city Oct. 1.

The ladies of that organization are well pleased at having been successful in securing such a noted speaker for that occasion. Dr. Chivers was formerly secretary of the American Baptist Missionary Union and later secretary of the National B. Y. P. U. At present he is the field secretary of the American Baptist Home Mission Society. The meeting October 1 will be held at the First Methodist church.

The program for the meeting is about completed. It includes an afternoon session given over to business and an interchange of methods. A session of sociability will be held and a lunch will be served at the closing.

Fine music in the shape of twenty-five voices under the directorship of Prof. Leil will furnish music for the occasion. During his stay here Dr. Chivers will be entertained at the home of the Rev. Cassidy, pastor of the First Baptist church.

BOY DIED SUDDENLY.
Mrs. Overfield Lost Mother and Son Within Two Days.

Within two days after she had assisted in burying her mother at Eureka, Mrs. G. L. Overfield came to Wichita with her two-year-old baby boy, who after a two-day illness at the St. Francis Hospital died Sunday night of cholera infantum.

Mrs. Overfield returned to Eureka yesterday with the body of her baby boy. Upon the arrival of Mr. Overfield Wednesday morning from Eureka, it will be decided what disposition is to be made of the body. It will probably be buried at Eureka.

Mrs. Overfield's mother, who died at Eureka, is well known in this city. Her name was Honora Dalley. She was also the mother of Mrs. D. W. Basham of this city, the wife of Dr. Basham. Another daughter of Mrs. Dalley, Mrs. Geo. August, of Eureka, accompanied by her husband, was in the city at the time her sister, Mrs. Overfield, died. Mr. and Mrs. August accompanied Mrs. Overfield and her body back to Eureka. Mrs. Basham will leave for that place Wednesday.

WICHITANS WILL GO.
Kansas City Blues and Oklahoma City to Play Ball.

Many of the local fans are figuring on attending a game of baseball between the Kansas City Blues and the Oklahoma City team at the latter place next Sunday. For that occasion the Blues are going to run a special train from Newton to Oklahoma City on that day. There will be a fare of \$2.50 for the round trip. The train will leave here Sunday morning at 7 o'clock and reach Oklahoma City about 1 o'clock. In the evening it will start back about 7 o'clock and reach Wichita at 12.

COUNTY HELPED THE FAIR.
Commissioners Issue County Warrant for \$200.

The county commissioners yesterday issued a county warrant for \$200 made payable to the Southwestern Kansas Fair and Carnival association.

Under the laws of this state, whenever somebody takes a notion to hold a fair the commissioners of the county are required to put up as much money as the members of the association pay in unless the amount exceeds \$25. President Irwin of the Fair and Carnival association sent a sworn statement to the county commissioners that the members of the association had paid in \$1,000 and the commissioners could do nothing else than pay the \$250.

Mrs. Dayton Munnell has returned to her home in El Reno, O. T., after a month's visit with her parents, Mr. and Mrs. J. C. Erick.

NATURE'S OWN CURE.
Hyomel Cures Catarrh Without Dangerous Drugging of the Stomach.

Not until Hyomel was discovered has it been possible to truthfully say that a remedy for catarrh was known.

This remedy works through the Hyomel inhaler for a few minutes four times a day, and during that time every particle of air taken into the air passages and lungs is impregnated with the germ killing and health giving Hyomel. It is the only treatment that cures catarrh.

Stomach drugging often causes disordered digestion or brings on some other disease and never makes a permanent cure of catarrh. Hyomel not only kills the germs in the throat and nose but penetrates to the minutest air cells in the lungs and enters the blood with the oxygen, killing the germs in the blood. It frees the mucous membrane from poisonous microbes and gives perfect health.

A complete outfit costs but \$1.00 and includes an inhaler, dropper and sufficient Hyomel for several weeks' treatment.

The leading druggists have a much faith in the merit of Hyomel that they agree to return the money to any purchaser who may be dissatisfied.

Four Boys Out of Every Five

Are hard on clothes.

That is just the reason we always make it a point in selecting Boys' Clothing to combine with style the strongest and most serviceable material and make.

It's no task for a mother to clothe her boy tastefully and economically here.

A desirable popular suit this season for the boy of six to twelve years, is the Double-Breasted Norfolk, an entirely new and very pretty style. The colorings are of the fancy mixtures, plain blacks and blues. We have an elegant variety of patterns in this suit at \$5; made to stand the strain of the live, active, kicking boy.

A football free with every Boy's Suit of \$3.50 or more.
